THE VOICE OF THE PEOPLE.

The great demonstration at Cooper Union ast night was a vindication of the principle of self-government.

It proved that the people are not indifferout to their highest interests, that they are not bound by party ties to bad nominations, that they propose to govern themselves-not

The spirit of the meeting was unmishable. It meant the continued prosecution of rascals, the persistent rebuke of corrupion, the merited reward of good and faithful

OVERBOARD WITH JONAH.

Have the real captains of the Demogracy at all vestige of leadership? Are they deaf and blind to the gathering storm?

It needed the brawny sinews of a blacksmith to break the corrupt ring of Bosses and Boodlers. And the blows of the sledge will continue to resound until that ring of and metal is smashed into smithereens. You'll hear the anvil chorus on Nov. 8th.

It has long been the misfortune of the ratio party in the State and nation that its local Bosses in this city knew nothing of and cared nothing for politics outside of the wards and districts that constitute their

MASTERS AND SERVANTS.

That was a true saying of ELLERY ANDER son at the Cooper Institute last night—taking the word rulers in its conventional sense :

A SHINING EXAMPLE.

It is not the least of Judge LAWRENCE's qualifications for the bench that he refuses to pay an assessment of \$25,000 to the political bloodsuckers.

A candidate who buys his judgeship is not fit for the bench.

One fruit of the people's revolt against Boss rule will be the abolition of this exorbitant and pernicious assessment of judges.

Let the other judicial candidates follow the shining example of Judge LAWRENCE.

The Registration of voters closes at 9 o'clock to night. See that your name is on the list.

TEACH THE GIRLS TO COOK.

It is a very sensible and practical idea for the Board of Education to introduce instructions in cookery into the girls' grammar schools, as urged by the committee which investigated the matter.

The poor, especially, would profit by such instructions. Modern culinary methods permit a saving of expense, together with a decided improvement of the food. There is no good reason why the poor man's table should not be quite as sempting as the rich man's table, as far as many staple articles are concerned.

Good cooking underlies health, morals and happiness. Every young woman should be an expert in the scientific methods of the modern kitchen.

The ability to prepare a good dinner at small cost is quite as useful as a knowledge of the craters of Popocatapetl or an intimate acquaintance with the sources of the Ganges. Put the whole girl, as well as the whole boy, to school.

The Registration of voters closes at 9 o'clock to right. See that your name is on the list.

Do the people of New York want to elect as their District-Attorney, at this crisis, a former henchman of Tween and servant of SWEENY?

If so, they will vote for the Col. FELLOWS who defended Tween and denounced Tilden and O'Conor at a meeting held to ratify the already detected Boss's most impudent nomination for Senator, in September, 1871, and who was the Ring's "silver-tongued" mouthpiece in the ensuing State Convention.

Is this the man to intrust with the prose rion of Boodlers and Bribers?

PUTTING ON THE SCREWS.

The price of coal is going up all over the country. In Chicago and other Western cities it is already outrageously high, and the desperation of consumers threatens serious coal riots as winter approaches.

Meanwhile the miners are working under time and at starvation wages.

Between indignant consumers and oppressed producers stands the Coal Barons' combination, robbing its victims at both ends. Strikes but further its schemes to limit its supply. It laughs at the protests of the public, and screws the price a notch

higher. Is it not about time for the people and the law to grapple with this infamous conspiracy to corner a necessity of life?

See the Sunday World for a story that will interest all employers and housekeepers.

How deadly is the gangrene of jealousy! Two morning journals have not only been led by it to abandon their support of the People's Candidate for District-Attorney, but also to suppress a report of the largest and most significant political meeting held in this city since the downfall of the Tween ring. And they were once newspapers.

Does THE WORLD print the news and all the news? Well, we incline to that opinion. And so do the people. Just look at its full report of the big meeting, its startling disclosures about the cholera, its interview with Gould and other exclusives this morning.

The issue of the local election is " between the best moral sentiment of the city, regard less of party, and the worst machine element, regardless of principle." When the people are aroused the moral sentiment always

He Visits the City of Pittsburg and Natura Gas-A Word for Gas.

[SPECIAL TO THE EVENING WORLD.] PITTEBURG, Pa., Oct. 29.-I came here last evening to compete, under the auspices of the Pittsburg Press Club and Marquis of Queensberry rules, in a kind of natural gas tournament. I do not brag nor boast, but it strikes me that I held my own for sixty min

Gas here springs spontaneously from the bosom of the earth, and immediately proceeds to take charge of the heating, lighting and manufacturing business. It is clean, smells better than the places where the streets have been torn up on Fifth avenue this summer, and burns readily when properly encouraged.

Pittsburg is a busy place. It is located at the point where the Alleghany and Monongabela rivers fork. Nature has done much for Pittsburg. She placed her in one of the busiest places in America and then gave her natural gas. This gas can be conducted into

natural gas. This gas can be conducted into a room by means of pipes, and, by an automatic arrangement recently perfected, will, at any hour designated on an alarm clock, enter your room, scratch a match on its trousers and light your fire, so that you need not get up till the room is warm.

It cooks evenly, and, assisted by an intelligence office, will do almost anything but vote. I like natural gas. Artificial or assumed gas does not please me; but gas that bubbles out of the bosom of the earth and just simply asks where it can get a job is what we have been looking for.

Artificial gas is superficial. It likes to look well in company and seem brilliant and attractive in scolety, but it is false at heart. It likes to seem refined and gentlemanly and polished and sincere, but rise and assert yourself and blow it out and see how quick it will take your life. Look the other way ten minutes and see how soon it will slip down into your cellar and toy with your meter.

But natural gas comes out of the ground, spits on its hands and asks where there is anything to do. It then proceeds to do it. The young men of America will do well to emulate the natural and untutored gas of Pittsburg. Do not seek to shine too much by night or attract attention by organizing a gas leak by day. Give less attention to the management of the meter and more to the matter of adequate service and you will do well. Give your best endeavors to the pro-

The Lily didn't see fit to appear in court, so she sent Abe Hummel with a physician's certificate that litigation would make her ill. The chances are that the great amount of fresh paint that was spread all over the court-room would have made her ill anyway. Judge Ehrlich listened solemnly to the reading of the physician's certificate and adjourned the case until two weeks from Tuesday. Maurice Barrymore walked gleefully out of court, carefully concealing all the assets he had with him from Messrs. Hall Blandy's searching gaze.

WAS FATHER BRENNAN JOKING?

What a Friend of the Newark Priest Say About the McGlynn Case.

[SPECIAL TO THE EVENING WORLD.] NEWARK, Oct. 28 .- The denial of Dr. McGlynn of the reported statement of Father Brennan, of this city, at Pittsburg, to the effect that McGlynn was going back on Henry George and would return to the Catholic Church, has caused a big sensation on Henry George and would return to the Catholic Church, has caused a big sensation here. The Rev. Brennan is one of the curates in St. James's Church, in this city. He is at present out of town, having gone to Chicago to attend the consecration of Bishop Burke as missionary bishop. A telegram was received at the parochial residence this morning from Father Brennan, stating that he had been interviewed at Pittsburg by a reporter, who insisted upon it that he was a bishop and would not be convinced to the contrary. In response to the reporter's questions he had given him his views upon a number of questions. He did not mention having spoken to the reporter on the McGlynn matter, and Father Cody, the pastor of the church, said he did not believe that Father Brennan had made any such remarks in regard to Dr. McGlynn as he is credited with making. The appointment of a receiver for Chesapeake & Chio is not generally regarded as an event of particular market significance, as its condition has been deplorably weak for many years. The County Democracy Convention was ram-bling through its business in a happy, peaceful way in Cooper Union the other evening, when fourteen men who stood at the outer end of the main aisle shoved far apart from one another to let a great man pass through. WHEAT CROP IN THE NORTHWEST.

The Total Yield in Minnesota and Daket Will be About 86,000,000 Bushels.

[SPECIAL TO THE EVENING WORLD.] St. Paul, Minn., Oct. 29.—The Pioneer-Press prints the following: The wheat crop in Minnesota and Dakota has been a subject of much speculation. An estimate of the crop, based on reports from correspondents

of much speculation. An estimate of the crop, based on reports from correspondents in every wheat-growing county in the State and Territory, is therefore given to-day. In May last an estimate of the crop, based on reports from the same correspondents, gave the total as \$5,000,000 and 90,000,000. The bases of the acreage for Minnesota are the figures furnished by H. Stockenstrom, Assistant Secretary of State and Statistician, whose report is made up from assessors' reports. There is no doubt that these reports are under the mark this year.

The average yield per acre in this State on the present crop is twelve and one-half bushels, which, on 3,046,000 acres (Mr. Stockenstrom's report), would yield \$8,085,000 bushels. In Dakota, until the present year, there has been no means of obtaining official figures on acreage. The Pioneer-Press has relied on its own figures for several years, and has found them to be, in the main, correct. The increase in acreage this year is about four hundred thousand, making a total of 3,075,000. The average yield per acre is fifteen and one-half bushels, making the total crop 47,662,000. This means a total crop for Minnesota and Dakota of 85,747,000, or 86,000,000 in round numbers.

The present crop of Minnesota is 8,710,000 bushels less than the crop of 1836, reported by the State Department, and about 4,000,000 less than the amount held by the farmers at the beginning of the present crop year, while very difficult to estimate, probably did not exceed 2,000,000 bushels. There was in store in Minneapolis, St. Paul and Duluth Aug. 1 5,800,000 more, which, added to the crop of 86,000,000 in round numbers, as the available resources for all purposes. The Minneapolis mills will need 30,000,000 bushels before the next crop.

Hawley have been warm friends ever since they stumped the State of Vermont together thirty-one years ago.

The house was brilliantly illuminated, and the floral decorations which adorned the entrances to the rooms the chandeliers and crimson draperies were rich and beautiful. Suspended from the damask curtains in the front of the parlor and surrounded by a floral wreath, were two large letters, "H. H.," the first being of red carnations, with the shoulder-strap of a brigadier-general, made of the same flowers in blue and white for the contrepiece, while the second was made of blue violets, with the emblems of the Royal Order of the Red Cross in the centre of if, the degree having been conferred upon Miss the degree having been conferred upon Miss Hornor by Queen Victoria.

KITTY HURST NEVER WAS A BELLE.

the Will Be Arraigned at Concord, Mass To-Morrow for Horse Stealing. [SPECIAL TO THE EVENING WORLD.] CONCORD, Mass., Oct. 29.-Kitty Hurst formerly of New York, sits by the cosy fire side at the Town Farm this morning. A rare exotic might wither if transplanted in a foreign soil, but this modern Becky blooms as bright and healthful as if she were mistress of the \$6,000 house in Melrose Highlands, which she bought without a cent in her

pocket.
"Is it true that you were ever a society belle in New York," asked THE EVENING WORLD reporter.
"Do I look it?" she replied. "To be sure "Do I look it?" she replied.

"Do I look it?" she replied. "To be sure I have always moved in good society, but I cannot say that I have ever been a society belle, I did inquire concerning apartments at the Fifth Avenue, New York," she went on, "but I never lived there in grand style

or any style."

Kitty will be arraigned in the Concord
Court Monday, charged with horse-stealing. Will Gov. Sawyer Sle

CONCORD. N. H., Oct. 29.—The bill ratifying the lease of the Manchester and Lawrence to the Boston and Maine and that authorizing the Bosto and Maine to guarantee the rental of the Northern to the Boston and Lowell were sent to the Governor yeaterday, who signed the former bill, but up to the time of his leaving on the 3.35 train yesterday afternoon he had not affixed his signature to the latter. Several parties in interest in the bill allowing the Boston and Main to guar-antee the lease of the Northern to the Boston and Lowell were heard by Gov. Sawyer this morning.

PRICE OF FUEL GOING UP.

THE CONSPIRACY OF THE COAL BARONS-TIGHTLNING SCREWS ON THE POOR.

Uners Working at Starvation Wages and the Men who Own the Mines Several Weeks Behind on Their Orders—All Sales Made Now on an Advance for Next Month's Prices-Prospects in this City.

PHILADELPHIA, Oct. 29.

strike in the Lehigh region, has caused another advance in the prices by the Roading Coal and Iron Company. For some time dealers in Lehigh coal in this city have been

Reading, coming besides at a time of the year when the coal companies are the busiest, has been more than the Reading could supply at ruling prices, and bus caused prices to be advanced from time to time. The Reading is now several weeks behind its orders, and has given notice that it will take no more except at an advance of 25 cents per ton over present prices. to go into effect Nov. 1, for the city and line trade. For more than a week past all orders have been made subject to next

orders have been made subject to next month's prices.

The movement of coal has been heavy enough to tax the motive power on the Reading's lines to the utmost to haul the coal to market. The prices to dealers at the mines, exclusive of freight, are \$3 for egg, stave, small stove and chestnut, and \$2.85 for broken coal. Meanwhile all is desolation in the Lehigh region, where thousands of miners are out of work. In Hazleton groups of men are hangling about the street corners; the stores are open, but without customers; people walk along the streets with a listless air and slow tread; commercial men visit the town only to fly from it. For nearly two months the great output of Lehigh coal has ceased to rumble over the iron-shod highways in miles of loaded cars, and instead the production in this valley and in the Schuylkill region has been stimulated to make up the difference. The miners are deprived of living wages amounting to over \$30,000 s day; the mine operators are also finding out that it is a costly strike. They have already THOUSANDS OF MINERS IDLE.

the mine operators are also iniging out that it is a costly strike. They have already burned up about \$75,000 worth of coal for pumping, spent about \$25,000 for wages of engineers, firemen and pumpinen, and maintained nearly 200 mules in idleness at a cost of about \$15,000. These are large figures, and if to them be added the operators' loss of profits and of trade, which cannot be estimated area, any enverying the figures because of the control of the mated even approximately, the figures be-come larger still.

THE BOSSES WON'T GIVE IN.

THE BOSSES WON'T GIVE IN.

The worst of it is, there seems to be no prospect of a settlement. The Lehigh operators declare that they will not yield to the men, even if no work were done for years. On the other hand the men declare that they will never return to work at the old rate.

Meanwhile complaints are pouring into the headquarters of coal combinations from all parts of the country east of the Rocky Mountains about the scarcity of coal. Now England is clamoring for it, though the retailers are asking from \$3 to \$5 s ton more than has been charged for ten years.

Even higher prices obtain out West, and the coal barons, with the powerful aid of the railroads, are shrewd enough to rush all the anthracite coal they can in that direction before navigation closes. New York and the East is the sufferer by these tactics. Retailers in the coal trade here anticipate great inconvenience for the rich and actual suffering to the poor before the winter is well begun.

While the sentiment among the coal trade of this city is generally adverse to any in-crease in prices, the action of the Reading Railroad in raising the price 25 cents, to-gether with the small supply on hand and the labor troubles, seems to dealers to point

the labor troubles, seems to dealers to point to an advance.

Mr. E. P. Campbell, Traffic Manager of the Erie Railway, said to-day: "Coal is very scarce and retail dealers are getting what they can for it."

Inquiry at the office of the Communipaw Coal Company, of Whitney & Kenmore, and of other wholesale and retail dealers, showed that there would be no surprise if the price of coal was raised from 25 to 50 cents per ton.

Very Young, Very Pat and Very Lively. [SPECIAL TO THE EVENING WORLD.]
BOSTON, Oct. 29.—At 7 Wallage court, Charlestown, is an interesting young lady on a visit with her parents from her native place, White Bay, Holling Point, N. F. Her name is Margaret Bianchard. She is destined to make a reputation Biancharu. She is destined to make a reputation in the world. She is nearly five years old and weighs 170 pounds; her waist measures forty-eight inches and her stockings are as big as ten-cent salt bags. Her height is about five feet. She developed so fast in early tofancy that before she was five months old she sat at the table and ate the same food as grown-up folks. Her superfluous adipose tissue does not seem to trouble her, for she is as lively as a cricket.

No Whiskers on Lief Ericksons' Statue. [SPECIAL TO/THE EVENING WORLD.]
BOSTON, Oct. 29.—Anne Whitney's statue of lef Erickson, the Norse explorer who preceded the great Genoese, will be dedicated to-day. It stands at the entrance to Back Bay, diagonally across Commonwealth avenue and Westchester Park, near Gov. Ames's palace. It is in bronze, of heroic size, and represents a man strong and well favored, vigorous of limb, yet not destitute of mental and moral force. A small steel cap sur-mounts his dowing locks, thrown backward from the fine brow. The face is beardless.

To Move Herse-Cars By Steam. [SPECIAL TO THE EVENING WORLD.] BOSTON, Oct. 29. - The Pearson Motor, and ingenious application of steam power for moving street cars with absolutely no noise, smoke or steam, as it is confidently expected, is the inven-tion of Mr. W. E. Pearson, a practical mechani-cal engineer, and is the fruit of six years hard toil and study. The plans of the inventor have now been perfected, and the motor has been applied to an ordinary street car of the box pattern, which will be publicly ried next week on the Lynn and Boston Horse Railroad.

Imposed Upon by a Cruel Jok HALIPAY, N. S., Oct. 29.—On Thursday W. am Waiker, employed with Jordan, Marsh & Co. of Boston, received a despatch, signed "Laura, stating that his father was dead. He immediately came home, over 600 miles, accompanied by his married sister, to attend the funeral, only to find himself the victim of a cruel joke. His father was alive and well, and by a curious coincidence was at the station when the train arrived.

Why Docan't Senator Hoar Buy a Glass.

[SPECIAL TO THE EVENING WORLD.]
WORCESTER, Oct. 59.—The Eighteenth District Republican Representative Convention was held last night. In Ward 5 the English-American citi-

sens had their say and criticised Senator Georgely. Hoar freely. Thomas Parker said that Hoar, Rice and Bates have done more harm to the Republican party than can be repaired in three years. If George P. Hoar could stand before a glass and see his reflection, he would be ashamed to make such an exhibition of himself. Fisher, of Cedar Swamp, widely known as "Grandpa Fisher," who figured so prominently in Sally Fratt McLean's novel entitled "Cape Cod Folks," is dead at the advanced age of ninely-one years,
